

7/17/68

Dear Paul,

I was at the Archives today. The index Xeroxing for me has not yet been begun, which gives you an idea of the service I get. However, I did go over 1347 and a related file, CD 20. Milteer is the name of the big-mouth but not the name of the marksman. That is Jack Brown. I checked name files on both and there is nothing on either. There is no record of the 11/27 arrest on Milteer. There are two Jack H. Browns, one of whom, clearly, cannot be this one and the other, by address, cannot be considered too good a prospect.

The right Jack Brown is from Chatanooga, and a friend of mine has some data I cannot use making it seem likely he did the job on King. He fits the description of another advance prediction. One of the two Texas JB's was the AGVA man in Dallas, the other is of 9312 Wildhaven, Dallas, son-in-law of Mr. and Mrs. T.A. Yates. I have asked Art Kevig to check with Loran Hall and see if this can possibly be the Wallay (or Wiley) Yates of whom he told me, a real radical-right nut-supershot who may have been the oxygen technician at Parkland 11/22/63!

CD1347 is clearly what Gemberling intended as a "nut" file and most of the cases quote competent authority in specification of the insanity or undependability of the sources. A rather cute way of masking the NSRP, no?

There is error in the index, but I will not be able to check it and see no reason to. It is incomplete on Milteer but I have ordered the documents or rather pages in which his name appears. If you have not, tell Jim not to and I'll give you copies. Conversely, if he has the index which I ordered and didn't get, I'd like to save that dough at the Arch.

The references in CD 20 are to ~~xxx~~ 24-6. The last page is withheld at FBI request. I'll send you the other two.

For the completeness of your files, the other pages withheld from CD 1347 are these: 139, 187-8, 240. Jim is right in listing these: 121, 125-6. Requesting agency, FBI.

In addition, there is VI, a white envelope marked "obscene" from exhibit envelope attached to report; no page 1 and no green slip stating what is withheld.

I didn't have time to go over them (again), but by accident I got CDs 532 and 5, which are on the deMohrenschildts.

Interestingly enough, I have been trying to get Ruby's notebook in complete form, as the copies of the letters I have sent you indicate. Today I asked for CD 362g. Too late I noticed that it was neither sent nor explained. I'll try again next time, which now cannot be tomorrow, as I had hoped.

No word from Hal.

Sincerely,

Harold Weisberg
